Join us for three magical days of exploring flower essences as beautiful catalysts and loving support for emotional and spiritual healing. Awaken to new realms of joy, intuitive development, and transformation... with the flowers.

This course is appropriate for healing practitioners working with others and those interested in personal growth, self-care, and family care. We will be using the Columbia River Gorge Flower Essences of 3 Flowers Healing—the Awakening Kit and Flowering Chakra Kit.

DAY 1

- Learn How to Balance the Chakras**

What is the soul purpose of plants? Learn about the *medicine* of the flowers, plants, trees, and gems and how subtle vibrational energy medicine works. Learn how to use a pendulum to choose flower essences and how to balance each chakra with flower essences. Experience the beautiful flower essences that resonate with *you*.

DAY 2

- What are the Wildflowers' Healing Properties, Families, & Doctrine of Signature?**

Sample and experience the healing properties of wildflowers as you learn selecting techniques. Practice ways to work with the flower essences for yourself and others. Learn the healing properties for many regional wildflowers and ways to connect people to their plant medicine.
